## electrolux **TIME MANAGER** – set your own wash time

Have you ever wished for more control over how long you want to spend washing clothes? Electrolux **TIME MANAGER** front load washers are a brilliant example of thoughtful innovation with you in mind. They are a unique range of front load washers that lets you set the time your wash takes, not the machine.

### **choose a time that suits you and your wash**

If you don't have time to wait for a long wash, the **TIME MANAGER** allows you to select a program to significantly reduce washing time. A less dirty wash means a shorter time. A heavier soiled wash – a longer time. This comes from a simple understanding that not every load requires the same long washing cycle for an efficient clean.

### **a range to appeal to every situation**

There are a variety of options across the Electrolux **TIME MANAGER** range. These include choice of capacity size, spin speed and specialised wash programs like 'jeans', 'bedding', 'sensitive plus' and 'sports intensive' to suit your specific needs.

### **4.5 and 5 star water efficiency**

The Electrolux range of **TIME MANAGER** front load washers are awarded a 4.5 and 5 WELS water star rating. This ensures water usage that is easy on the environment and your wallet. We can all make a change for the better by consciously choosing the best products for our environment.

## electrolux wash n dry combo

All the benefits of a front load washer are combined with a condenser dryer to give you the ultimate laundry solution. Simply select a program and your clothes are washed and dried in the machine – perfect for busy lifestyles and limited space areas.

### space saver

Instead of having two separate machines, this all-in-one laundry solution washes and dries your clothes, saving space in the laundry.

### large capacity

With a choice of either 8kg/5kg or 7kg/3.5kg wash/dry capacity, the washer/dryer combo can take on large loads, saving you time and effort.

### no venting required

Condenser drying eliminates the need for venting by converting the moist, hot air inside the drum into water and pumping it down the drain.

### TIME MANAGER

The TIME MANAGER function allows you to control the length of time to wash depending on how dirty the load is.

## range features

### time and space

Giving you the convenience of two machines in one, the EWW14791W and EWW1273 saves you time and space in the laundry. They combine an efficient front load washing machine with an auto sensing condenser dryer.

### gentle on your clothes

Jetsystem is a constant, gentle shower that massages the water and detergent through your wash to give your clothes the superior care they deserve.

### big capacity, small space

The compact 600 x 600mm cabinet has been designed to fit a large 7 or 8kg capacity wash load – small on the outside, big on the inside. Now you don't have to compromise style for functionality.

### easy to read

Understanding the program functions is easy with the new LCD display. It communicates in real words what's happening including a wash guide. (EWF1481 only)

### sensitive skin

The 'sensitive plus' program has been developed especially for those who suffer from skin allergies or simply have sensitive skin. The combination of extra rinses, with the elimination of intermediate spin cycles, makes it easier to rinse out insoluble particles from your washing. (EWF1282 only)

### easy loading and unloading

Available as an accessory to complement the range of Electrolux front load washers, the Electrolux Pedestal<sup>#</sup> is designed to make loading and unloading easier for you. Features a slide-out drawer and spring-loaded removable laundry basket. (excludes EWW14791W)

<sup>#</sup>For use only with Electrolux front load washers.

### premium water efficiency

Our range of front load washers carry a 4, 4.5 or 5 star WELS<sup>†</sup> water rating – caring for the environment as well as your clothes.

### top service

Top Service encompasses the after sales service provided by the Electrolux Group to consumers including delivery, home service and spare parts.

### **The Thoughtful Design Innovator.**

Do you remember the last time you opened a gift that made you say "Oh! How did you know? That's exactly what I wanted!" That's the kind of feeling that the designers at Electrolux seek to evoke in everyone who chooses or uses one of our products. We devote time, knowledge, and a great deal of thought to anticipating and creating the kind of appliances that our customers really need and want.

This kind of thoughtful care means innovating with insight. Not design for design's sake, but design for the user's sake. For us, thoughtful design means making appliances easier to use and tasks more enjoyable to perform, freeing our customers to experience that ultimate 21st century luxury, ease of mind. Our aim is to make this ease of mind more available to more people in more parts of their everyday lives, all over the world. So when we say we're thinking of you, you know we mean just that.

The "Thinking of you" promise from Electrolux goes beyond meeting the needs of today's consumers. It also means we're committed to making appliances safe for the environment – now and for future generations.
