

14cm Built-in warming drawer with adjustable temperature, push to open with soft closing drawer and fan assisted heat circulation.

Product Details

FEATURES

Adjustable temperature
between 40-80C

Push to open, soft closing
drawer

Fan forced heating

Quick set function

Full drawer extension

Electronic touch controls

BENEFITS

MORE THAN JUST A PLATE WARMER

This warming drawer can do much more than just keep plates and food warm. With multiple temperature settings you also have access to an array of helpful functions. Choose to defrost frozen food, prove dough, ferment yoghurt, or even dehydrate fruit, all in one versatile appliance.

EFFORTLESS PLATE WARMING

The push-to-open, soft-closing drawer with full extension makes it so simple to warm your plates and dishes, especially when your hands are full. For added safety, the warming drawer stops heating automatically when open.

MAKE DRAWER-DRIED FRUITS

Dehydrating fruits in your warming drawer at between 40-60C is a deliciously simple way to preserve fruits such as apples, bananas, oranges and pears without the need for a dedicated dehydrating appliance. The dried fruit can be stored for long periods at room temperature to be used as garnish, infused in tea or enjoyed as tasty, healthy snacks.

Absolute heat control

With five temperature selections between 40C and 80C and three separate functions, you can heat everything from delicate glassware to heavy cookware.
